Hear about the impact that Healthserve projects are having on families and communities across the globe, meet the Board, hear how you can get involved

JOIN US at our annual one-day conference to hear, learn and be inspired by the work of medical practitioners working to empower individuals and communities in improving health outcomes in resource poor settings.

HEAR FROM real-life medical practitioners about the challenges facing our neighbouring countries of Asia, the Pacific and Africa where there are scarce health resources or there is poor access to health facilities.

LEARN HOW HealthServe works to deliver, coach and facilitate targeted education to health workers and communities, implements affordable and sustainable solutions to health needs, advocates for improvement in access to health care and collaborates with decision makers and stakeholders to implement evidence based practice.

REGISTER TODAY! Spaces are limited. To register for the conference please email: John Gumbley at office@healthserve.org.au
